## GERMANS KILL THEMSELVES

Suicides Among the Officers Show an Alarming Increase

WIVES OF OFFICERS FOLLOWING SUIT

Loss of Social Position Held Partly Responsible

Geneva, July 9.—Suicides among the German officers are increasing alarmingly, especially in Prussia, where the number of suicides is 38 per cent more than before it became known that former Emperor William was to be placed on trial by the allies, according to Munich newspapers. The wives of officers are also reported to be taking their own lives. The increase in the number of suicides is attributed, not only to patriotic despair, but to the loss of the officers' past social position.

## ARMED GUARDS ARE ON DUTY

At a Factory Near Chicago Where Bloodshed Occurred Tuesday

TWO MEN KILLED AND SCORE INJURED

More Trouble Expected by Corn Products Refining Co.

Chicago, July 9.—Five automobile loads of men were taken into the Corn Products Refining company plant at Argo, a southwestern suburb, early to-day in anticipation of a repetition of the outbreak there yesterday in which two alleged strikers were shot and killed and a score of persons injured. Captain Michael Forem of the Argo police department would not affirm or deny that the men taken into the plant were deputy sheriffs, but said that "more trouble was expected and that necessary steps were being taken to prevent it."

The plant employed 2,000 persons, principally foreigners. About half the number struck for recognition of the union, wages having been advanced recently. The trouble yesterday arose over a demonstration against a visiting nurse, who was leaving the plant. Guards ran to her rescue and shots were fired. Later another similar outbreak occurred.

F. M. Sayre, superintendent of the plant, said that the factory would not be run as a "closed shop," that operations would be continued with the force remaining, and others would be employed as they applied.
